Education

The Hong Kong Polytechnic University

09/2025 - 10/2026

- Master of Metaverse Technology
- Core Courses: Extended Reality, Metaverse Fundamentals, Human Computer Interaction, Metaverse Application, Computer Vision and Image Processing, Big Data Computing

Xi'an Polytechnic University

09/2020 - 06/2024

- **Major:** Information and Computational Science (Bachelor of Science)
- **Primary Course Scores:** Mathematical Foundations of Information Security (98), Operations Research and Optimization Methods (98), Computer Fundamentals (94)
- **Rank:** 3/34
- **Language:** Chinese (Native), English (CET-6: 527, IELTS: 6.5)
- **Skills:** Microsoft Office, SQL, Figma, ProcessOn, Visio, Blender, Unity (Effect Verification), Notion, Lark

Internship Experience

Qin Du Zhong Lian Training School, Product Operations Intern

01/2024 – 06/2024

- Analyzed messy product information and low conversion issues, and planned full-link optimization strategies based on user data and competitor research.
- Optimized page layout, keywords and content formats, and ran A/B tests on two types of short video content. Implemented user segmentation and refined content distribution.
- Raised entry conversion rate from 3% to 5.2%. Organic content achieved 40% higher conversion. Established standardized operation SOP and reusable content templates.

Project/Research Experience

Nano-Space: WebVR Immersive Relaxation System(Metaverse Application)

01/2026 - 04/2026

- Built a 360° panoramic VR relaxation environment for residents with spatial deprivation, and designed anti-motion sickness functions for better user experience.
- Optimized 4K panorama loading and adopted dynamic image compression to fix stuttering on low-end devices, and completed full mobile compatibility tests.
- Conducted user tests with 15 participants and reached an 80% stress relief effective rate. Summarized feedback and proposed iteration and promotion plans.

ECHOES OF THE LOST: VR Historical & Cultural Exploration Game (Extended Reality)

09/2025 - 12/2025

- Designed game framework, puzzles and VR interaction solutions, and worked with the team to solve VR motion sickness and frame drop problems.
- Managed an 8-person cross-functional team and set phased acceptance standards. Optimized 3D models and scene loading to improve running performance.
- Adjusted movement mode to teleportation and greatly enhanced comfort. Summarized reusable VR experience design guidelines.

Solar-Powered Photocatalytic Wastewater Treatment Project (Project Leader)

10/2022 - 12/2023

- Traditional wastewater treatment has high energy and operating costs. We developed a solar-driven photocatalytic prototype, balancing cost and performance for national innovation project evaluation.
- As the project lead, I compiled full project documents and arranged a 14-month milestone plan. I coordinated team and lab resources to solve catalyst stability technical problems.

- We completed the physical prototype and obtained acceptance for 2 utility patents. The project was awarded national Excellent rating and provided references for related equipment development.

Publications & Patents

- “A New Solar Photocatalytic Wastewater Purification Device”, First Inventor (11/2022)
- “A Wastewater Treatment Device”, First Inventor (01/2023)
- “A Firefighting and Rescue System with Spatial Positioning Function” (09/2021)
- Wrote and published **six news reports** on national, provincial, and university-level publicity platforms during the “Bringing Culture/Science and Technology/Hygienic Health to the Countryside” Social Activity in Weinan, Shaanxi, and was awarded for the **First Prize** of Outstanding Achievement. (07/2022)

Honors & Awards

- Outstanding Student (12/2021), Outstanding Graduate (06/2024), Outstanding Volunteer (11/2021)
- First Class Comprehensive **Scholarship** (12/2021)
- Third Class **Scholarship** (12/2022), Second Class **Scholarship** (12/2023)
- **Second Prize** in National College English Contest (Category C) (05/2021)
- **Second Prize** in the 13th Shaanxi Provincial College Mathematics Competition (Undergraduate) (06/2023)
- **Silver Award** in the 7th China “Internet +” College Students Innovation and Entrepreneurship Competition (School Level): "Life Ark—Pioneering IoT Technology for Vital Signs Detection" (07/2021)
- **Bronze Award** in the 7th China “Internet +” College Students Innovation and Entrepreneurship Competition (School Level): "Xichen Protection—Pioneering Reusable Medical Protective Suits" (07/2021)
- **Third Prize** in the 12th National College Students E-Commerce “Innovation, Creativity and Entrepreneurship” Challenge (Cross-Border E-Commerce Independent Station Practical Competition) (08/2022)
- **Second Prize** in the 12th National College Students E-Commerce “Innovation, Creativity and Entrepreneurship” Challenge (Cross-Border E-Commerce Independent Station Theoretical Competition) (07/2022)
- **Bronze Award** in the 14th “Hope Cup” College Entrepreneurship Competition at Xi’an Polytechnic University: "Dream-Chasing Cultural Tourism Company" (07/2022)
- **Second Prize** in Xi’an Polytechnic University 2022 Summer Social Practice Excellent Works: “Autistic Children from the Public Perspective: A Case Study of Pucheng County, Weinan City, Shaanxi Province” (12/2022)
- **Outstanding Individual** in Military Training (09/2020)
- **Outstanding Member** of Xi’an Polytechnic University National Flag Guard (03/2024)
